| GIORGIO GRAESAN and Friends | CERA D'API | Revision | 00 |
| | | Date | 20/02/2020 |

1. DESCRIPTION

CERA D'API is a completely natural water-based beeswax emulsion. It makes walls shiny and increases water repellency, without significantly altering their breathability. Easy to apply, it gives greater washability, resistance to aggressive agents and to abrasions.

2. USE

CERA D'API is suitable for application on lime-based interior wall coverings.

3. SUBSTRATE PREPARATION

Before applying CERA D'API, allow the surface to dry for at least 48 hours.

4. APPLICATION METHOD

CERA D'API is ready to use. If necessary mix by hand with our mixing paddle (PADDLE) before use. Dip our PE7 sponge into the tin and remove any excess before applying a light layer. Continue to apply until the surface no longer absorbs. Avoid leaving excess product on the surface.

After 30 minutes, depending on the ambient conditions, polish with our dry cloth.

5. TOOL CLEANING

Cleaning of the tools should be performed immediately after use with water.

6. CLEANING

Lime products treated with CERA D'API are cleaned with CLEANSING MILK diluted 50 ml in 2 litres of water.

7. SAFETY INDICATIONS AND HAZARD IDENTIFICATION.

The product does not require labelling in accordance with current regulations. Use the product according to current hygiene and safety regulations. After use do not disperse the containers in the environment. Allow the residues to dry well and treat them as special waste. Keep out of the reach of children. If swallowed, seek medical advice immediately and show the container or label. Do not dispose of residue in sewers, waterways and soil.

For further information see the safety datasheet available on the website: www.giorgiograesan.it

| TECHNICAL SPECIFICATIONS: APPLICATION | | |
|---------------------------------------|---|--|
| Dilution | Product ready for use. | |
| Mixing | Always mix before use | |
| Colouring | Not required | |
| Tools | Sponge (PE 7) and cloth (CLOTH) | |
| Primer | Not required | |
| Conditions of application | +10°C to +30°C with relative humidity < 85% | |
| Number of coats | 1 or more as needed | |
| Drying time | Protect within 12 hours of application | |
| Protective coating | Not required | |
| Washability | CLEANSING MILK | |

| TECHNICAL SPECIFICATIONS: CONSUMPTION | |
|---------------------------------------|-----------------|
| CERA D'API | 50-60 sqm/litre |

| TECHNICAL SPECIFICATIONS: PRODUCT | | |
|--|--|--|
| Composition | Water-based emulsion beeswax | |
| Specific weight | 0.88 ± 0.03 kg/litre | |
| Ph | 7.5 – 9.5 | |
| EU limit value (Dir. 2004/42/EC) | 21.3 g/l | |
| Cat. A/I: paints for decorative effects (water-based): 200 g/I | | |
| Storage conditions | Store in a tightly closed jar in a cool, dry place above + 10°C and below + 30°C | |
| Packaging | 1 litre | |
