

GIORGIO GRAESAN and Friends	TECHNICAL SHEET CERA DEL VECCHIO	Code	TDS1013_00
		Revision	00
		Date	18/06/2018

1. DESCRIPTION

CERA DEL VECCHIO is a completely natural emulsion of beeswax and soap. Once applied, it makes walls glossy and increases water repellency, without significantly altering breathability. Its ability to penetrate pores confers greater washability and resistance to harsh agents and abrasion.

2. USE

CERA DEL VECCHIO is suitable for application on lime-based wall coverings for interiors.

3. PREPARING THE SUBSTRATE

Let the surface to be treated dry for at least 48 hours.

4. METHOD OF APPLICATION

Before using, mix the product until a smooth cream is obtained.

CERA DEL VECCHIO should be spread over the whole wall, proceeding by small areas, about half a square meter at a time, using our PE 7 sponge. Dip the sponge into the tin and drain it before applying a light layer, until the surface no longer absorbs the product. Avoid leaving excess product on the surface.

After 10-30 minutes (time range dependent on ambient conditions) polish with our dry cloth.

5. CLEANING THE TOOLS

Clean the tools with water immediately after use.

6. CLEANING THE FINISHED PRODUCT

Lime-based products treated with CERA DEL VECCHIO are cleaned with LATTE DETERGENTE, diluting 50 ml in 2 litres of water.

7. SAFETY RECOMMENDATIONS AND RISK IDENTIFICATION.

The product does not require labelling according to current regulations. Use the product according to current health and safety regulations; after use, do not dispose of containers to the environment; let residue dry thoroughly and handle as special waste. Keep out of the reach of children. If swallowed, seek medical advice immediately and show this container or label. Do not empty into drains, waterways or soil.

For more information, see safety data sheet available on: www.giorgiograesan.it

GIORGIO GRAESAN and Friends	TECHNICAL SHEET	Code	TDS1013_00
	CERA DEL VECCHIO	Revision	00
		Date	18/06/2018

TECHNICAL CHARACTERISTICS: APPLICATION	
Dilution	Product is ready for use.
Mixing	Always mix before use
Colouring	Not provided
Tools	PE 7 sponge and cloth (PANNO)
Primer	Not provided
Conditions of application	From +10°C to +35°C with relative humidity < 85%
Number of coats	1 or more, as needed
Drying time	Protect within the 12 hours following application
Protection	Not provided
Washability	LATTE DETERGENTE

TECHNICAL CHARACTERISTICS: COVERAGE	
CERA DEL VECCHIO	50 sqm/litre

TECHNICAL CHARACTERISTICS: PRODUCT	
Composition	Polypropylene waxes emulsified at high pressure
Specific weight	0.98 ± 0.03 kg/litre
pH	6.5 - 7
EU limit value (Directive 2004/42/EC) Cat. A/I: decorative effect coatings (water-borne): 200 g/l	Maximum VOC content 0.0 g/l
Storage conditions	Keep in tightly sealed container, in a cool, dry place at temperatures between +10°C and +30°C
Packaging	1 – 2.5 litres
