

**1 Identification of the substance / mixture and of the company / enterprise**

**1.1 Product identifier**

Product Code: ART. 2000  
Trade Name: GIOIA

**1.2 Relevant identified uses of the substance or mixture and uses advised against**

Description/Usage: PAINTING PRODUCT - DECORATIVE FINISHING

**1.3 Details of the supplier of the safety data sheet**

Supplier: Giorgio Graesan & Friends s.a.s. Di Shila Graesan  
Address: Via Bergamo n. 24  
Place and country: 20037 - Paderno Dugnano MI (IT)  
Phone: + 39 02 99039560  
Fax: + 39 02 99039590  
Email of the person responsible: [tecnico@giorgiograesan.it](mailto:tecnico@giorgiograesan.it)

**1.4 Emergency telephone number**

For urgent inquiries refer to + 39 02 99039541, monday to friday,  
8.30-12.30 / 14.00-18.00

**2 Hazards identification**

**2.1 Classification of the substance or mixture**

The product is not classified as hazardous as per Directive (EC) 1272/2008 (CLP) (and subsequent amendments), in accordance with Directive (EC) 1907/2006 and subsequent amendments.

**2.2 Directive 1272/2008 (CLP) and subsequent amendments**

Classification and hazard statements: Information not available.

**2.3 Label elements**

Hazard pictograms: Information not available.  
Warnings: Information not available.

**2.4 Indicazioni di pericolo**

EUH208: It Contains: Mixture of: 5-chloro-2-methyl-2h-isothiazol-3-one, 2-methyl-2h-isothiazol-3-one.  
It may cause an allergic reaction.

**2.5 Safety advice**

P101: If medical advice is needed, keep at the disposal the container or the label of the product.  
P102: Keep out of the reach of children.  
The safety data sheet is available on [www.giorgiograesan.it](http://www.giorgiograesan.it)

**2.6 Other hazards: Information not available.**

**3 Composition / information on ingredients**

**3.1 Substances: Non relevant information.**

**3.2 Mixtures: The product does not contain substances classified as hazardous to health or the environment as per Directives 67/548/EEC and/or Directive (EC) 1272/2008 (CLP) (and subsequent amendments) in such quantities as to require the declaration.**

**4 First aid measures**

**4.1 Description of first aid measures**

EYES: Remove any contact lenses. Wash immediately thoroughly with water for at least 30/60 min. Consult a doctor.  
SKIN: Take off all contaminated clothing. Take a shower immediately. Consult a doctor.  
INGESTION: Make drink water as much as possible. Consult a doctor.  
INHALATION: Call a medic immediately. Rescuer must take adequate precautions.

**4.2 Most important symptoms and effects, both acute and delayed**

No known episodes of damage to health attributable to the product.

**4.3 Indication of any immediate medical attention and special treatment needed**

Information not available.

**5 Firefighting measures**

**5.1 Extinguishing media**

SUITABLE EXTINGUISHING MEDIA: Extinguishing media are the conventional: carbon dioxide, foam, powder and nebulised water.  
NOT SUITABLE EXTINGUISHING MEDIA: None in particular.

**5.2 Special hazards arising from the substance or mixture**

HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE: Do not breathe combustion products.

**5.3 Advice for firefighters**

GENERAL INFORMATION: cool the containers by spraying with water to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention equipment. Collect extinguishing water to prevent the product to percolate in drains. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.

EQUIPMENT: normal clothes to fight the fire, as an open circuit compressed air breathing apparatus (EN 137), flame retardant suit (EN469), flame-resistant gloves (EN 659) and Firefighter boots (HO A29 or A30).

**6 Accidental release measures**

**6.1 Personal Protection, protective equipment and emergency procedures:** If fumes or powders are released into the air, adopt a respiratory protection. These guidelines apply to both clerks and those who work for the emergency interventions.

**6.2 Environmental precautions:** Do not allow the product to percolate in drains, watercourses, or open water.

**6.3 Methods and materials for containment and cleaning up:** Confine using earth or inert material. Remove most of the material and eliminate the remainder using jets of water. The disposal of contaminated material must be made in accordance with section 13.

**6.4 Reference to other sections:** Any information on personal protection and disposal is given in sections 8 and 13.

**7 Handling and storage**

**7.1 Precautions for safe handling:** Handle the product after consulting all other sections in this security sheet. Avoid dispersal of the product in the environment. Do not eat, drink or smoke while handling it.

**7.2 Conditions for safe storage, including any incompatibilities:** Keep the product in clearly labeled containers. Store containers away from any incompatible materials, checking section 10.

**7.3 Specific end use(s):** Information not available.

**8 Exposure controls / personal protection**

**8.1 Control parameters**

Information not available.

**8.2 Exposure controls**

Observe the safety measures used in handling chemical substances.

HANDS PROTECTION: Protect your hands with category III work gloves (ref. EN 374). The following must be considered for the final choice of the work glove material: compatibility, degradation, break time and permeation. In the case of preparations, the resistance of work gloves to chemical agents must be checked before use, as it is unpredictable. The gloves have a wear time that depends on the duration and the mode of use.

SKIN PROTECTION: Wear work clothes of category I with long sleeves and safety footwear for professional use (ref. Directive 89/686/EC and EN ISO 20344). Wash with soap and water after removing protective clothing.

EYES PROTECTION: We recommend wearing tight protective goggles (ref. EN 166).

PROTECTION OF RESPIRATORY TRACTS: In case of exceeding the threshold value (eg. TLV-TWA) of the substance or one or more of the substances present in the product, consider wearing a mask with type A filter, whose class (1, 2 or 3) will be chosen according to the maximum concentration of use. (Ref. EN 14387). In the case were present gases or vapors of a different nature and/or gases or vapors with particles (aerosols, fumes, mists, etc.) you should make use of combined type filters. The use of means of respiratory protection is required if the technical measures taken are not sufficient to limit worker exposure to the considered threshold values. The protection provided by masks is in any case limited. In the case where the substance in question is odorless or its olfactory threshold is higher than the relative TLV-TWA and in case of emergency, wear an open circuit compressed air breathing apparatus (ref. Standard EN 137) or an outside air breathing apparatus (ref. standard EN 138). For the correct choice of respiratory protection device, refer to Standard EN 529.

ENVIRONMENTAL EXPOSURE CONTROLS: Emissions from production processes, including those from ventilation should be checked for the purposes of compliance with environmental protection.

**9 Physical and chemical properties**

**9.1 Information on basic physical and chemical properties**

Physical State	Liquid
Colour:	Whitish
Odour:	Slight odour
Olfactory threshold:	Not available
PH:	8 - 8.5

	Melting Point:	< 0°C (water)
	Boiling Point:	100°C (water)
	Boiling Range:	Not available
	Flashpoint:	> 60 °C.
	Evaporation rate:	Not available
	Flammability of solids and gases:	Not available
	Lower flammability limit:	Not available
	Upper flammability limit:	Not available
	Lower explosive limit:	Not available
	Upper explosive limit:	Not available
	Vapour Pressure:	2266.5 Pa at 20°C (water)
	Density of vapours:	Not available
	Relative density:	1.10 - 1.20 Kg/liter
	Solubility in water:	Not available
	Distribution coefficient/n-octano/water:	Not available
	Auto-ignition temperature:	Not available
	Decomposition temperature:	Not available
	Viscosity:	10000-12000 cps (brookfield)
	Explosive properties:	Not available
	Oxidizing properties:	Not available
9.2	<b>Other information</b>	
	Dry weight:	31.64%
	VOC (Directive 2004/42/EC) :	1.29 % - 14.11 g/liter
	VOC (volatile carbon):	< 0.01% - 0.06 g/liter
	Solubility:	water miscible
10	<b>Stability and reactivity</b>	
10.1	<b>Reactivity:</b>	There are no particular risks of reaction with other substances in normal usage conditions.
10.2	<b>Chemical stability:</b>	This product is considered stable in normal usage and storage conditions.
10.3	<b>Possibility of hazardous reactions:</b>	Under normal storage and usage conditions no hazardous reactions are foreseeable.
10.4	<b>Conditions to avoid:</b>	None in particular. However follow the usual precautions against chemical agents.
10.5	<b>Incompatible materials:</b>	Information not available.
10.6	<b>Hazardous decomposition products:</b>	Information not available.
11	<b>Toxicological information</b>	
		No known episodes of harm to health due to exposure to the product. In any case it must be handled in accordance with the rules of good industrial hygiene.
11.1	<b>Information on toxicological effects:</b>	Information not available.
12	<b>Ecological information</b>	
		Adopt good working practices, avoiding release into the environment. Inform the competent authorities, should the product reach waterways or sewers or contaminate soil or vegetation.
12.1	<b>Toxicity:</b>	Information not available.
12.2	<b>Persistence and degradability:</b>	Mixture of: 5-chloro-2-methyl-2h-isothiazol-3-one,2-methyl-2h-isothiazol-3-one. Rapidly biodegradable.
12.3	<b>Bioaccumulative potential:</b>	Information not available.
12.4	<b>Mobility in soil:</b>	Information not available.
12.5	<b>Results of PBT and vPvB assessment:</b>	Based on available data, the product does not contain any PBT or vPvB in percentage higher than 0.1%.
12.6	<b>Other adverse effects:</b>	Information not available.
13	<b>Disposal considerations</b>	
13.1	<b>Waste treatment methods:</b>	Reuse, if possible. Product residues as such are to be considered non-hazardous waste. Disposal must be performed through an authorized waste

		management, in compliance with national and local laws. Avoid release of the product in soil, sewers or waterways.
13.2	<b>CONTAMINATED PACKAGING:</b>	Contaminated packaging must be recovered or disposed in compliance with national waste management regulations.
14	<b>Transport information</b>	
		The product is not to be considered dangerous according to the provisions in force on the transportation of dangerous goods by road (A.D.R.), rail (RIS), by sea (IMDG Code), and by air (IATA).
15	<b>Regulatory information</b>	
15.1	<b>Safety, health and environmental regulations / legislation specific for the substance or mixture.</b>	Seveso category: None. Restrictions relating to the product or contained substances pursuant to Annex XVII to Directive (EC) No. 1907/2006: None. Substances in the Candidate List (Art. 59 REACH): None. Substances subject to authorization (Annex XIV REACH): None. Substances subject to export notification Directive (EC) 649/2012: None. Substances subject to the Rotterdam Convention: None. Substances subject to the Stockholm Convention: None. Healthcare checks: Information not available. VOC (Directive 2004/42/EC): Decorative effect paintings (A/I) VOC given in g/liter of product ready for use: Maximum limit: 200.00 (2010). Product VOC: 14.14
15.2	<b>Chemical safety assessment</b>	A chemical safety assessment for the mixture and the substances it contains has not been elaborated yet.
16	<b>Other information</b>	

**LEGEND:**

ADR: European Agreement concerning the transport of dangerous goods by road. / CAS NUMBER: Chemical Abstract Service Number. / EC50: Concentration that gives effect to 50% of the population subject to testing. / EC NUMBER: ID number in ESIS (European archive of existing substances). / CLP: Directive EC 1272/2008. / DNEL: Derived No Effect Level. / EmS: Emergency Schedule. / GHS: Globally Harmonised System for classification and labeling of chemicals. / IATA DGR: Regulation for the transport of dangerous goods by the International Air Transport Association. / IC50: Concentration of immobilization of 50% of the population subject to testing. / IMDG: International Maritime Code for Dangerous Goods. / IMO: International Maritime Organization. / INDEX NUMBER: ID number in Annex VI of the CLP. / LC50: Lethal concentration 50%. / LD50: Lethal dose 50%. / OEL: Occupational Exposure Level. / PBT: Persistent, bioaccumulative and toxic according to REACH. / PEC: Predicted Environmental Concentration. / PEL: predictable level of exposure. / PNEC: Predicted No Effect Concentration. / REACH: EC Regulation 1907/2006. / RID: Regulations concerning the international carriage of dangerous goods by rail. / TLV: Threshold Limit Value. / TLV CEILING: Concentration which should not be exceeded during any time of occupational exposure. / TWA STEL: Short Term Exposure Limit. / TWA: Exposure Limit Weighted average. / VOC: Volatile organic compound. / vPvB: Very persistent and very bioaccumulative according to REACH. / WGK: Water hazard class (Germany).
